This is another podcast from one of the many podcasts that I like to listen to. This one is from the I Had to Say It podcast.

More of the same old problems

Ok so yet again, I am having technical issues. So no editing, just gonna slap the raw recording up, which means there is video if you want it this week. If you want to send me a new PC go to ihadtosayitpodcast.com and shoot me a line. But seriously there is a show. I don't think it's one of my best shows, so Bruce will probably love it. The less satisfied I am the more he seems to like em. More problems, Lindsey Graham died, Mitch is supposedly still alive, and ICE keeps having to perform ballistic therapy on morons who don't seem to understand if you try to run them over, they will shoot you. As always I have thoughts.
