This is another podcast from one of the many podcasts that I like to listen to. This one is from the Jason Stapleton Program, definately worth a listen!

Collin Hunt - Financial Freedom Through 3D Printing

If you're stuck in the "pretty good job" trap then you're going to love this episode. Collin is a guy who enjoys his work and this company but wanted to create some freedom for himself through entrepreneurship.

He took his skills as a designer and started a 3D printing company to solve a costly problem in his industry. It's an amazing story of someone who identified a problem and came up with a solution to solve it.
