This is another podcast from one of the many podcasts that I like to listen to. This one is from the Jason Stapleton Program, definately worth a listen!

593: A Defense of Capitalism

"

I've had several questions come up in recent weeks. Not just questions about libertarianism or economics but specific questions related to how we answer alternate views.

I've picked out a few articles today that viewers have expressed interest in better understanding.

My hope is that you will not only gain a better understanding of the specific issues we're going to discuss but that you'll also have a better understanding of capitalism in general.

Thanks

Jason
