This is another podcast from one of the many podcasts that I like to listen to. This one is from the I Had to Say It podcast.

## **Ye's Meltdown Made me a hipster & The first Twitter Dump**

So I was on the Kanye hate train way before it was cool. And frankly this guy did the unthinkable and made the vast majority of the world be done with him in about a weekend. So I have thoughts on that. Also there was the first dump of files detailing all the crap going on behind the scenes at twitter, nothing particularly surprising there, and of course all of the people who benefited from it are trying to downplay it and act like it is meaningless, personally I am waiting for the vax and covid dump.
