We've talked about the UBI several times over the past couple years, but there's a great article about it today that ties in nicely with an article from Bloomberg about the social welfare system in Sweeden.

Turns out, when you stray from the 5 principles of liberty we discuss on this show you can keep things together for a short time, but human nature and the laws of economics catch up with you eventually.

The fears over China selling US Treasuries over the evolving trade war haven't amounted to much. China is still buying our debt, but there's a new seller, and the result could be catastrophic.

My new Trading Titans Mastermind Program was just released. Check it out here:
