This is another podcast from one of the many podcasts that I like to listen to. This one is from the Jason Stapleton Program, definately worth a listen!

Thoughts on Taxation and the Art of Self-Promotion

Today is a bit of a weird day. I just got back from California where I attended an event put on by my friend who's starting an events company. It was really cool and I was impressed at how well she promoted herself and her brand. I want to give you some insights that I think will help you as well.

But there's also a lot going on in the world. The confirmation hearing of Judge Ketanji Brown is an absolute circus, Joe Manchin is suggesting a trillion dollar tax increase while inflation chips away at our budgets and the president is gaffing us into another world war.

It's a mad, mad world out there. Let's try to make some sense of it.
