This is another podcast from one of the many podcasts that I like to listen to. This one is from the Jason Stapleton Program, definately worth a listen!

I'm Sick of Coronavirus

"After spending the week in Palm Springs, Jason is back in the studio today. It feels like the whole world is talking about the coronavirus. Try as we might, we can't come up with any other stories going on. But we're sick of talking about it. So today we're talking about anything but the virus! In fact, Jason has a story from his past that should inspire and encourage you, no matter where you are in your life. Also, don't forget about our "Virtual Happy Hour" tomorrow. There is no agenda. Just wanting to spread some love and share a drink with you all as we hunker down for what everyone says will be the worst coronavirus week yet. If you'd like to join, just click here and then tap the "set reminder" button. Hope to see you all there!"
