547: Second Amendment Under Fire and the Lies Government Tells Us

"

Whether we're talking about second amendment rights or the right to keep what we earn, the natural rights provided by "our creator" as well as those protected by the Constitution are under constant assault.

Today we're going to look at several examples of the ways government lies to us, and why we must be ever vigilant when given, we hear these silver tongued foxes promise us the moon in exchange for our liberty.

I have come to believe the greatest threat to our liberty is not a foreign government or invading army. It's not even a terrorist attack. The greatest threat to our liberty comes from our own government, and it's constant intrusion into every aspect of our lives.
