This is another podcast from one of the many podcasts that I like to listen to. This one is from the I Had to Say It podcast.

Insurrection, elections, protests, and.....Aliens?

So it's been a little over a week into 2024 and boy do we have some stuff to think about. The anniversary of the most tame ass violent insurrection on the books, the death of an unarmed woman at the hands of a cop that DIDN'T start a summer of love, farmers sick of the bull, and aliens? Well something happened in Miami, and the official story stinks on ice. And as always I have thoughts.
