This is another podcast from one of the many podcasts that I like to listen to. This one is from the Jason Stapleton Program, definately worth a listen!

## Russia May Have Just Killed the Dollar

I know, people have been talking about the “death of the dollar” for at least two decades, but Russia just did something that could change our entire global trade system.

They pegged the Ruble to gold and are now demanding payment for natural gas in Rubles. If you’re still a little confused about why this is such a big deal then this is the perfect episode for you.
