This is another podcast from one of the many podcasts that I like to listen to. This one is from the I Had to Say It podcast.

### We HAD to talk Starwars

Ok so after a week hiatus that literally no one reacted to the interview series is back on track with Cody of the Dungeons & Podcasts show joining me. We talk starwars, politics, music, beer, and more for your listening pleasure. Hope you enjoy and maybe decide to interact with the socials huh?
