This is another podcast from one of the many podcasts that I like to listen to. This one is from the Jason Stapleton Program, definately worth a listen!

538: Tyranny of the 9th Circuit

"

What happens when the law becomes nothing more than the decision of three judges in California? What happens when the law becomes nothing but the decision of one man in Washington D.C.? The answer is, liberty dies.

That is what we face today. A president who rules by executive order and a court that supplements the law for its own political opinion. Today we're going to talk about the 9th Circuits decision and what it means for our liberties.

I'm also going to discuss the call by Yvette Felarca for more riots to silence speech and scare people into compliance. She was on a local news station recently calling for terrorism to achieve the goals of her group "By Any Means Necessary" (BAMN).

I hate bullies, and I'm willing to fight to defend our liberty. If progressives are going to use terror to achieve their ends, they're going to find me, and men like me, very unforgiving.
