More and more "Democratic Socialists" are popping up in campaigns across the nation. Shockingly their message of "free everything" resonates with a population who grew up in a government-run education system.

But what are the true costs of implementing and maintaining a society as envisioned by these would be politicians? Today we'll look at just 4 programs.

1. Free College
2. Free Medial
3. A Jobs Guarantee
4. A Universal Basic income

According to the socialist, these programs are not just good for our country they are a moral imperative. We are terrible people for not providing these things to our fellow man.

Today you'll learn the true cost of these programs using the most conservative numbers I could find. If this does not convince you of how foolish and dangerous these ideas are then nothing will.
