This is another podcast from one of the many podcasts that I like to listen to. This one is from the I Had to Say It podcast.

## Eclipse 2024 & What we should be talking about instead

So there was an eclipse. A total eclipse even. And they were talking about rapture, chaos, the purge, and all kinds of nonsense. In the meantime a bunch of stuff that we should actually be worried about was going on. I touch on some of it in this episode. You know the drill click the links, do the things. Upgrade your life.

Support the friends of the show, go to the shops, buy the things.
