This is another podcast from one of the many podcasts that I like to listen to. This one is from the I Had to Say It podcast.

I already did one on Roe

So the whole Roe V Wade thing is going on. I already made my feelings clear in a prior episode. It's there if you want to go listen to it. I do rehash it briefly then move on to the more pressing issue at hand. The way people react to it. People are being played, plain and simple and some of them are finally starting to realize it. So we will talk about it a bit. And if you have an opinion about it the lines are always open.

Also go check out horribledesigins.com I can't say enough good stuff. The shirts are comfy, and they are just smarmy enough to bring a smile to my face. The wood chipper one is my favorite not at work wear.
