You've got to go way back into the archives to find the last time we talked about the Australian economy but thanks to an incredible article by a guy named Matt Barrie we're going to talk about it today.

I highly suggest you read the entire article. It can be found at:

https://medium.com/@matt_11659/matt-barrie-australias-economy-is-a-house-of-cards-6877adb3fb2f

I'm only going to cover the first 8-10 pages on the show today, but it's well worth reading the entire thing.

We are on the verge of the most significant economic catastrophes the world has ever seen, and it may very well originate in China.

What does that mean for you? How will it all shake out? We'll discuss everything on the show today.

This is one of those episodes you don't want to miss. It's one you need to share.

See you tomorrow!

Jason
