This is another podcast from one of the many podcasts that I like to listen to. This one is from the Jason Stapleton Program, definately worth a listen!

Taxes, Tariffs & Fines

"

Last night I went out for ice cream. My wife and I do that some nights after the kids go to bed of course.

On the way home I ended up getting pulled over and was issued a ticket for nearly \$140. I'll tell you the whole story on the show today, but it really got me thinking about the barriers governments throw up that keep us from getting ahead.

Today President Trump met with Theresa May, the Prime Minister of Great Britain and one of the things she remarked on was how she and Trump agreed that they want to make the issues facing average citizens at the forefront of the discussion.

What the Prime Minister and so many others in government fail to realize is THEY are the problem. It's not individuals or companies or even other nations who play the villain; it's our own politicians who always seem to hurt the very people they aim to help.

This is a great show for sharing. Don't forget to subscribe!
