This is another podcast from one of the many podcasts that I like to listen to. This one is from the I Had to Say It podcast.

Fauci's little notebook, TPS is up, and commie groceries

So, still dealing with the computer issues. Every time I think I have it fixed I'm wrong. So we have another raw episode, but we'll get through it. There is about a two minute dead spot where I had to mute to check what the boss was hollering about. For anyone who is curious, the dog was being a jerk. Anyway in this episode I talk about my thoughts on the termination of the TPS status of a bunch of Hatians, Fauci's diary, and Commie Monddami's brilliant idea for state run grocery stores. Then I give you a recipe for Puerco Pibil. It's good. As always go do the things at ihadtosayitpodcast.com so I don't feel like I am wasting my money on that website.
