This is another podcast from one of the many podcasts that I like to listen to. This one is from the Jason Stapleton Program, definately worth a listen!

On Gun Violence in America

According to Gunviolencearchive.org there were 692 mass shootings last year. NPR is reporting 213 mass shootings this year alone. On the surface it appears we have a very serious gun problem (or perhaps a mental health problem) in America these days.

Today I want to try and separate the facts from the fiction by taking an unemotional look at the numbers and then address what can or should be done.
