If you wonder why I have written off the Libertarian Party, this is a great example.

The LP is full of arrogant, self-righteous children and Vice Chair Arvin Vohra is a perfect example. No tact, no sense of messaging, no clue.

I hit the LP hard in this episode, so if you're a big fan, you might want to skip this one.

Trump has been in the news all weekend with pundits debating his new mid-east strategy. What none of them are talking about is the 110 Billion dollar arms sale that all this diplomacy is meant to facilitate.

More on that in the back half of the show.

Finally, we'll talk about the new Facebook rules for offensive and violent content. Turns out, if you want to kill yourself on a Facebook live stream they're ok with that.
