This is another podcast from one of the many podcasts that I like to listen to. This one is from the Jason Stapleton Program, definately worth a listen!

Ruth Bader Ginsburg Dies: Here's What's Coming Next

"New Gear store! www.officialnomadapparel.com ----- I don't know who is writing the script for 2020 in The Great Simulation, but he's a master. By now, unless you live on the moon, you know that Ruth Bader Ginsburg died over the weekend. As if this election process wasn't gonna be messy and chaotic enough already! Democrats have spent the last several weeks advertising their playbook in the upcoming election. They're going to contest it through every means possible. It's essentially a guarantee that it winds up in the Supreme Court. And suddenly SCOTUS has no tiebreaker. President Trump and Mitch McConnell, the Senate Majority leader, have made it clear that they plan to nominate and vote on a nominee before the election. Democrats declared their intent to fight them on it before even acknowledging RBG's death. We're watching some of the most fascinating events in American history unfolding before our eyes. The next couple months will be a trip!"
