This is another podcast from one of the many podcasts that I like to listen to. This one is from the I Had to Say It podcast.

## Coming Out, Guns Blazing

It will surely be an interesting one, and I have some thoughts on the matter. Shocking, huh? But there is still hope, and we need to cling to that. But in this episode I talk about the upcoming election, the current migration crisis, the impact of US policies on the global perception of us, and what I think, quite frankly, lies on the horizon for all of us. And why I hope I am wrong.
